### **Ingredients**

Gelatine (Pork).

## **Handling Information**

#### **Directions for Use**

Soak the gelatine leaves in cold water for 5 minutes. Squeeze out excess water. Place the soaked leaves in a suacepan and over a very low heat, melt slowly. Do not let the mixture boil as this can prevent a good set being achieved. If using cold ingredients (e.g. cream), add small amount of the cold liquid in a pan with the gelatine and heat until disolved. Gradually add the rest of the cold ingredient to the gelatine mixture. Never the other way around.

Store in a cool, dry place.
