TFS - Herbs Fresh Tarragon - Information

Tarragon is a leafy herb with thin and oblong, blade-shaped leaves that average 6 to 7 centimetres in length and taper to a point. The plant has an upright nature, with its green leaves growing in pairs along woody stems, sometimes giving the herb a bushy appearance. The leaves are dark green, narrow, and pliable with lightly serrated edges and showcase a prominent vein that extends lengthwise across the surface. Texas tarragon has the aroma and flavour of sweet liquorice with hints of pine and citrus.
